Title 1 Next™ is a cloud-based software solution designed to support and streamline administration of your district's Title I program.

PCG's Title 1 Next™ provides documentation management and supports district-wide compliance monitoring for all Title I, federal programs, central office administration, and related departments. The platform ensures central office administrators can quickly disseminate, retrieve, evaluate, and approve an unlimited number of federal programs and central office department documents. In addition, administrators can create customized workflows to ensure the documents are reviewed and/or signed off by the appropriate school and central officer administrators in a process defined by your district.

Key Benefits of Title 1 Next™

Increases operational efficiency. From streamlined data and documentation, to built-in program management and communication tools, Title 1 Next™ encourages more efficient, collaborative and productive Title I operations within the Federal Programs administrative office and school campuses.

Improves compliance and accountability. In addition to collecting and storing documents for any number of academic years, T1N™ ensures that schools accurately submit the appropriate documentation for monitoring on time, without second-guessing contents of folders or crates.

Supports Every Student Success Act (ESSA) implementation. Whether soliciting feedback from community and parent engagement initiatives or analyzing and reporting the effectiveness of expenditures on student impact and achievement, Title 1 Next™ provides the tools districts need to facilitate ESSA implementation.

Additional Features of Title 1 Next™

- Unlimited Storage of academic years
- Cloud-based, 24x7 access
- Secured documentation storage
- Status Reports and Filtering Analytics (export to Excel)
- Administrator Dashboards
- Email reminders
- Real-time monitoring alerts for tracking and approving compliance documents
- Secured Internet servers with mirrored website backups
- Password security enforced, including auto-logoff features
- Restricted access to stored content based on user roles
- District/State Title Announcements
- Compliance Calendar
- School-based Private Folders
- Online and in-person training options available
- Help desk support
